

QUESTION SETS LESSON 14

Question Set 1

1. Who is in the photograph?
2. What is taking place?
3. Where is this taking place?
4. When is this happening? (time of year if possible, time of day...)
5. Why is this taking place? (This calls for speculation so you don't have to include this question if you choose not to. It is good practice for them to begin to make reasonable, educated guesses, though, as a precursor to prediction.)

Question Set 2

1. What do you see? (Just describe, don't form opinions or make guesses – number of people, colors, things, etc.)
2. What is the conflict?
3. Describe a similar event from your own life?
4. What is the cause of this conflict or conflicts like this?
5. What can be done to avoid or resolve conflicts like this? (Again, this calls for speculation. Again, this is your call.)
