History Palette

History Actions

Potter.psd

Open

Duplicate Layer

First Action

Second Action

Each new action in the History Palette is placed below the preceding action, so the higher the layer, the earlier the action.

The selected layer is blue. The selected layer is the layer you are currently working on.

Layers move up, so the highest layer in this palette is the layer that is on the top of the image.

Add layer style

Create a new layer

Trash—drag a layer into the trash to delete it.

These images are from Photoshop CS. If you are using a different version, yours may look slightly different.
