

ASSIGNMENT SHEET GROUP 1
VOCABULARY STATION

Quizzing a Partner

Instructions: In your group, divide yourselves into pairs. If your group has an odd number of people, make one of them a group of three instead.

You should have created flash cards for each of your vocabulary words (in addition to the 15 cards that you already completed a week ago). Take out your flash cards. Shuffle them. Read the first flash card's sentence out loud to your partner and say the vocabulary word. Your partner should attempt to define the vocabulary word used in the sentence and spell the word. Make a pile for correct words and incorrect words. Place the person's card in the appropriate pile. You are not allowed to use a dictionary or your own flash cards to quiz yourself. Even though you will not be hearing your own flash card sentences, you should be able to figure out the meaning of the word from the way it is used in the sentence.

Write the names of each of your group members and the number of words they got correct next to their name. Misspelling a word is $\frac{1}{2}$ point off. Not being able to define it is $\frac{1}{2}$ point off. To receive one point, you must be able to spell the word and define it correctly.

Name _____ Number of Correct Words _____

Name _____ Number of Correct Words _____

Name _____ Number of Correct Words _____
