My Reflection For Today

The refection for this sketch page should include students' perspective on erased hard work, as well as their initial impression of the complexity of legislative materials (especially the example ordinance included in the **Legislative File**)

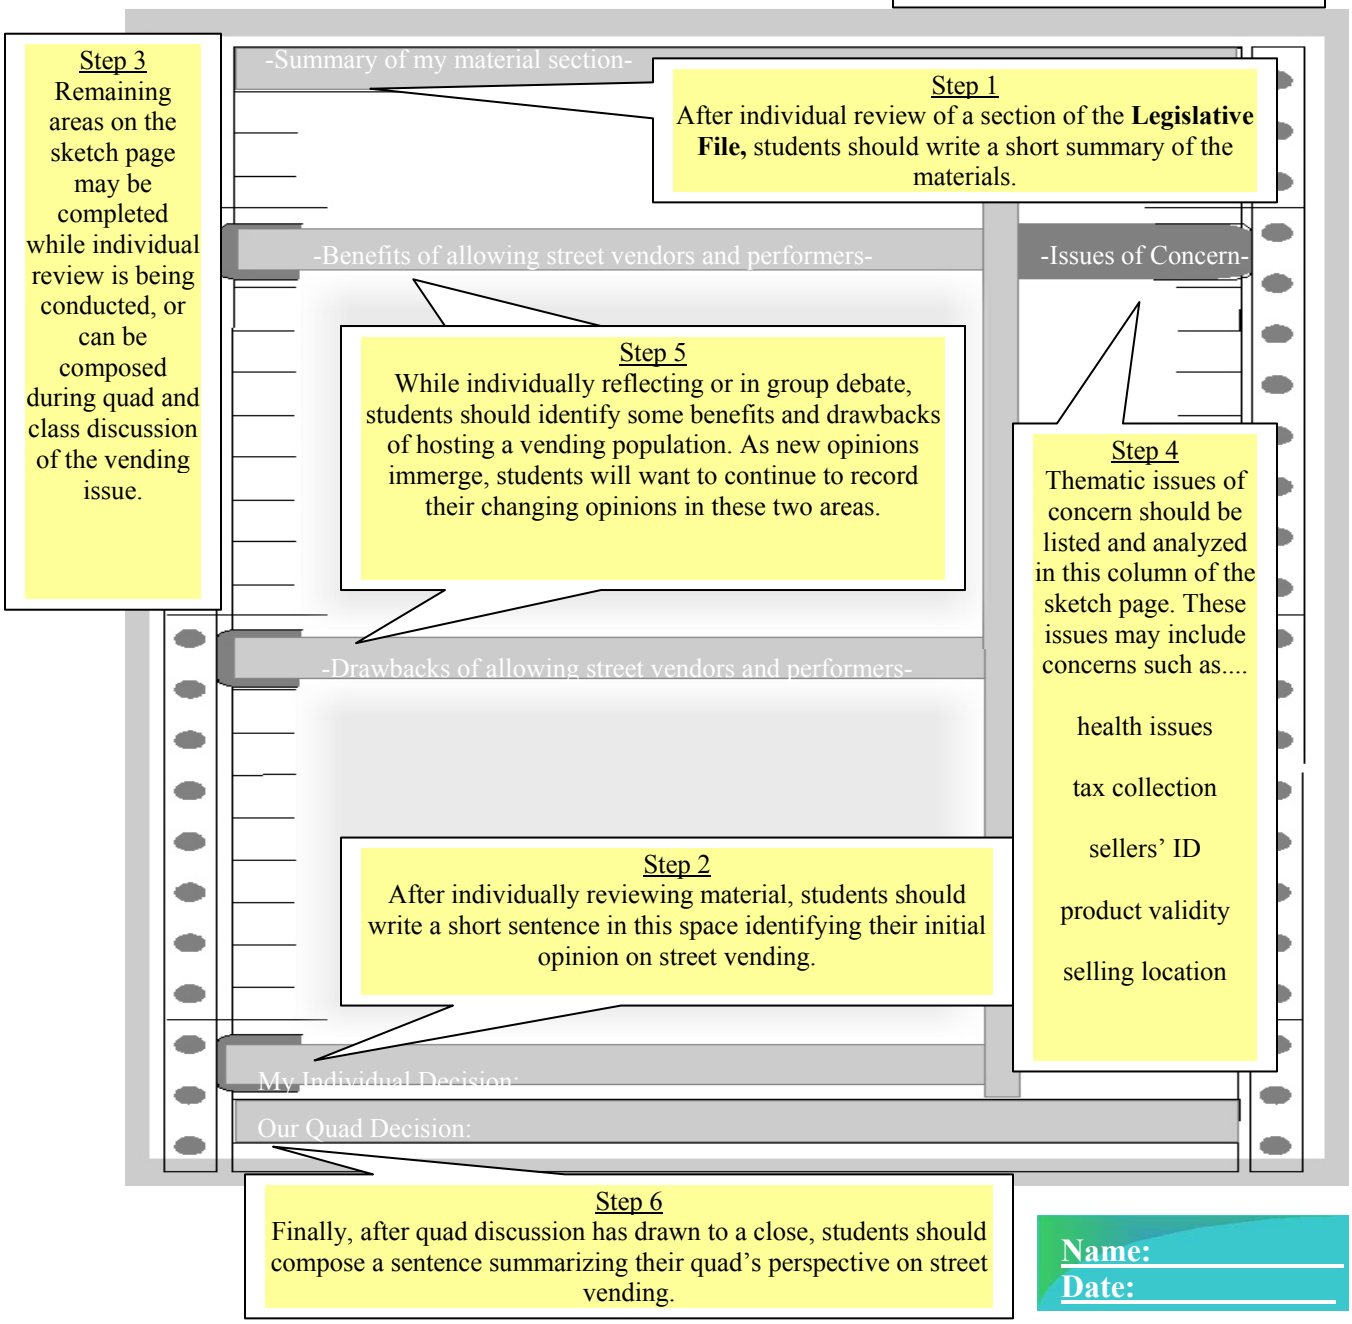
**SKETCH TOPIC:**

# VENDOR DECISION

**SKETCH # 10**

The goal of Grindstone is to…

Outline the challenge of making legislative decisions.



**Step 3**
Remaining areas on the sketch page may be completed while individual review is being conducted, or can be composed during quad and class discussion of the vending issue.

**Step 1**
After individual review of a section of the **Legislative File,** students should write a short summary of the materials.

**Step 5**
While individually reflecting or in group debate, students should identify some benefits and drawbacks of hosting a vending population. As new opinions immerge, students will want to continue to record their changing opinions in these two areas.

**Step 4**
Thematic issues of concern should be listed and analyzed in this column of the sketch page. These issues may include concerns such as....

health issues

tax collection

sellers' ID

product validity

selling location

**Step 2**
After individually reviewing material, students should write a short sentence in this space identifying their initial opinion on street vending.

**Step 6**
Finally, after quad discussion has drawn to a close, students should compose a sentence summarizing their quad's perspective on street vending.
